H ward, I don't know if this article from today's Post's Style Sec-
t on will interest you or the Whites. After you have read it, please
s nd it to them. If either of you wants to keep it, do, because my
o n interest is minor, restricted to the CIA's manner of treating
w nor defectors. In some ways this resembles that of Oswald. The
n me George Nea[redacted]ow means nothing to me. Nor does Gionfriddo, which
I marked because his role is obvious and because it did not at the
t me I came to it seem innocent. All the big powers' intelligence
a paratushave too much to do to really care for or about the unim-
p rtant. If the CIA could lose this guy for two months, could not
t e same have happened with LHO in USSR? Liao was much more valuable
t an LHO could have been. HW 3/11/73
